

**Hochschule
Augsburg** University of
Applied Sciences

2. August 2013

Dear finder,

you are reading a letter of two students from the University of Applied Sciences Augsburg and you are holding the payload of our weather balloon project in your hands.

In the box there are measuring instruments and a small computer that were sent into stratosphere to an altitude of 30 kilometers. Please do not open the isolation box.

With this letter you will receive our contact information and we would be grateful if you inform us about the discovery.
